The kids are here to show us how it's done

MEN'S STYLE • BY MURRAY CLARK • @MURRAY__CLARK

NEXT GEN

1

The Rwanda Stock Exchange (RSE) has unveiled its third platform entitled "the Next Gen Q" to be officially launched in early 2018.

The new platform is meant to offer technical and financial support to start ups and other innovations in a bid to strengthen local capital market ecosystem through boosting the small and medium enterprise(SME) sector in Rwanda.

Next Gen Q segment is a practical response by the RSE management to the immense potential possessed by start ups and other innovations in Rwanda.

2

The RSE management is cognizant of Rwanda's unique context whereby its economy is principally driven by a rapidly changing and modernizing SME sector.

Within that context, start ups and other innovations unique to Rwanda have potential of assisting in building the local capital market ecosystem.

This can be made possible through nurturing them to have capability of feeding into two of RSE's first two platforms namely the small and medium enterprise segment(SMEMs) and the main investment market segment(MIMs).

3

Supporting 300 Rwandan starts up and innovations.

Apply now

There are no limits to what a founder of a new Rwandan enterprise or young innovator can achieve. We are aware to fact that some of the biggest and most globalized successful enterprises of today in the world economy were once start ups of yester years.

Given their agility and speed, start ups have potential to disrupt any industry in the world. Given their potential, at inception of Next Gen Q in early 2018, the RSE management has a target of supporting at least 300 start ups and innovations.

4
